I have read somewhere that an individual intellectual and social stimulation begins from the college. Today when I think of this statement, after more than a decade of passing out from JIMS, I think its cent percent true. Its extremely important to remember delicate and golden years of your life, which you spend in an apt environment amongst the guidance of the right mentors.

I take this opportunity to convey profound gratitude towards the JIMS for never ending support commitment and understanding towards each student's life.
